Originally planned to take place in March 2020 at the Skydome Multiplex JJ's & The Skydome Events Space the event programme has been adapted for on-line streaming.

**Culture on the Move** Explores the influence migration has had on the cultural development of our city, and celebrates and expresses the diversity and creativity that is continually evolving.

For the original project professional Coventry artists, musicians and choreographers engaged with students from Cardinal Wiseman, Foxford, Bishop Ullathorne and Hereward College, The Mercia Friendship Group, The Claddagh Group, Young at Heart, Grapevine, The Monday Night Makers and other individuals from communities across the City to explore migration in the 1940's – 60's and Now.

The project also trained and supported 15 young people who are not in employment, education or training through our Transformations Programme, developing their skills in event management, and production.
